## Gallows Road Exit Ramp, I-495 North, to be Reconfigured

**FAIRFAX** – Beginning around 9:30 a.m. on Monday, June 1, the Gallows Road exit ramp from the Capital Beltway, I-495 north, Inner Loop, will be reconfigured as part of the Virginia Department of Transportation's I-495 high occupancy toll (HOT) Lanes project.

The exit ramp will be reconfigured from a single left turn lane and shared left and right turn lane to single turn lanes in each direction. The ramp reconfiguration, lasting for approximately one-year to 18 months, is necessary for construction of the new Gallows Road Bridge that will allow HOT Lanes, pedestrian and bicycle access.

The Gallows Road exit ramp from I-495 north carries about 800 vehicles during peak rush hour. As an alternate route, motorists may use the next exit to Route 50 (Arlington Boulevard) west to access Gallows Road.

(END)
